REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious an assembly comprising a catheter tube, an expandable basket assembly at the distal end of the catheter and a distal tip assembly in combination with all the elements and structural and functional limitations as claimed and further comprising a rigid first member which engages at least one of the spines and a less rigid region which partially overlaps the first member such that the distal tip assembly provides a decreasing stiffness from the proximal to the distal region.
